

Position Statement on the Use off Face Coverings in Chiropractic Practice

The NC Board of Chiropractic Examiners, in the pursuit of its mission to protect the public, expects every North Carolina licensed chiropractic physician to maintain a standard of practice consistent with best practices. With respect to the COVID Crisis, generally, and in the case of mask/face covering utilization, specifically, the Board considers the guidance published by the Centers for Disease Control (CDC) to set the bar for best practices in disease prevention. Therefore, it is the position of the Board that face coverings are required for all health care providers (doctors and staff) that are within six feet of another person for so long as such is the recommendation of CDC.

Additionally, North Carolina licensed chiropractic physicians are required to comply with state and local infectious disease prevention.

"N.C. General Statute 90-157. Chiropractors subject to State and municipal regulations.

Chiropractors shall observe and be subject to all State and municipal regulations relating to the control of contagious and infectious diseases."

Approved June 19, 2020
